14mm D.S.P T2

Design Application

This completely new lens is designed for 35mm Cinematography with particular emphasis on low distortion. The colour balance is designed to match existing Cooke lenses.
The lens is therefore an ideal close focus companion to the current Cooke Speed Panchro range of lenses achieving wide angles in a compact lightweight unit.

Specification

Focal Length	14mm
Aperture	T2-T22
Number of Elements	10
Scale Distance	Infinity to 8”
Lens Mount	BNCR, PL, Arri Bayonet, Aaton
Front Diameter	100mm
Overall Length	90mm
Weight	910gms 2lbs
Construction Mechanism	Wire Form Patented Drive System
